

# Mathematics 2018

Year 11

The course you choose in Year 11 is largely determined by the level of Mathematics you have been studying in Year 9 and 10.

Your position(ranking) in Year 10 will also help you choose the best course for Year 11.

# Mathematics Standard 1

- Optional ATAR and HSC exam
- **5.1 level Classes 10M6/7**
- currently **8** students in Year 11 (11 in Year 12)

# Mathematics Standard 2 (ATAR)

- 5.2 or lower end of 5.3 level
- **10M2/3/4/5**
- currently **70** in Year 11 (73 in Year 12)
- This is our most popular course

## Mathematics 2 unit      ATAR

- 5.3 level Middle and top group
- **10M1 and top of 10M2**
- currently **36** in Year 11 (27 in Year 12)

## Mathematics Extension 1      (1 Unit course) ATAR

- **Top of 5.3 level 10M1**
- currently **14** students in Year 11 (8 in Year 12)

## Mathematics Extension 2 ATAR

- offered in Year 12 only
- currently **2** students

## Scaling of marks and ATARs

- If you are planning on doing a university degree in Science, Medicine, Engineering or Mathematics you should study Mathematics Advanced.
- Bridging courses in Maths have high rates of attrition and add time and expense.
- Common grading across Mathematics Standard and Mathematics Advanced from 2019 means previous advice on Scaling is no longer relevant.

**Please be guided by your  
Mathematics teachers recommendations.**

**It can be difficult to change courses  
during the year without changing  
several other subjects as well.**

**See Mr Moroney at school for more information.**
