Guiding Principles

Factors that need to be taken into consideration when applying the policy include:

The uniform must be the result of formal consultation with students, teachers and other staff and parents/carers (including the Parents and Citizens' Association). Parents/carers must be given sufficient time to purchase items and schools may need to give parents/carers. All suppliers and retailers must also be notified and given sufficient time to change the school uniform.

A school's response to a student not wearing school uniform should be appropriate, fair and consistent. A student cannot be suspended or expelled for not wearing school uniform. Schools should positively encourage the wearing of a school uniform. Principals can make exemptions for not wearing a uniform after discussion with parents & carers, and if considered justified by the principal.

Decisions about school uniform requirements must comply with work health and safety and anti-discrimination legislation. A school uniform should promote the health and safety of students by identifying items necessary for particular activities to protect students from injury (for example, items for sun protection or safe footwear).

Schools must have written agreements in place to set out the terms and conditions of a 'uniform shop' and 'supply arrangements'. School must advise parents on how they can access financial support if they are unable to purchase uniform items. To assist families, schools should organise facilities such as clothing pools.
